HAZARDS	THINGS TO KEEP IN MIND
<ul style="list-style-type: none"> Danger, swift water! Not advised to paddle at flood stage. Check waterdata.usgs.gov. Hazards include deadfalls, strainers, motorboats and tidal currents starting at 3R Fish Camp and extending downstream. Recent rains can make certain landings inaccessible due to big mud puddles. 	<p>Average paddling rate is roughly 3 miles per hour.</p> <p>For Questions call: Satilla Riverkeeper (912) 462-5094 or Georgia DNR (912) 285-6094 Report issues to DNR Ranger Hotline (800) 241-4113</p> <p>* Private access locations, special permission or a fee may be required.</p>
